

At an elevation of 300 meters above sea-level, spring appears gradually. Cool nights coupled with long clear days, ensure a constant steady growth. Combine this with naturally fertile soil, resulting in long stem lengths and more importantly, generous bud sizes.

Strategically located close to Christchurch's international airport, Aunt Rosie and her logistic partners strive to ensure all peony consignments are packed and delivered to the highest standard.

Background of Peonies grown in New Zealand:

- The New Zealand peony industry has evolved into a niche group of boutique growers, providing premium quality flowers.
- Aunt Rosie's philosophy centers around growing top end peony varieties, in a diverse range of colours, for supplying international markets.
- Ensuring customers have standardized volumes, available from early November through December.
- Aunt Rosie's premium Red and Coral peonies are one of the last varieties picked in the Southern Hemisphere, perfect for Christmas
